

Over-Night Relief for Constipation

A Small Dose on Retiring and You
Are Well and Happy by Morning.

It is only natural that the simplest of ailments should be the most general, and so we have a whole nation suffering from constipation and indigestion, for they are closely allied. But common as constipation is many people do not seem to know they have it. They will complain of headache, drowsiness or biliousness, all unconscious of the cause of the trouble.

You should have a full and free movement at least once a day. If you pass a day you are constipated, and the result will be that you will catch a cold easily or have a more serious ailment. To cure the constipation and forestall still graver trouble take a dose of Dr. Caldwell's Syrup Pepsin at night before retiring and by morning relief will come, without disturbance from sleep or any inconvenience.

Legions of people use it regularly in such emergencies, some of them formerly chronic invalids who have suffered from constipation all their lives. Mr. A. B. Danner, 326 Riley St., Harrisburg, Pa., says: "Dr. Caldwell's Syrup Pepsin gave me almost instant relief from stomach and bowel trouble. I now eat anything I want and sleep well." Many others will tell you that they have tried most things recommended for this purpose but have found Syrup Pepsin the only one always reliable. A bottle can be obtained at any drug store for fifty

MR. A. B. DANNER.

cents or one dollar, the latter size being bought by families already familiar with its merits.

Syrup Pepsin is mild, pleasant-tasting and non-gripping. Mothers give it to their infants, and yet it is effective in grownups. It is for everyone who suffers from any form of stomach, liver or bowel trouble, constipation, dyspepsia, biliousness, etc. Its action will so delight you that you will forever avoid harsh cathartics, purgatives, pills and salts.

If no member of your family has ever used Syrup Pepsin and you would like to make a personal trial of it before buying it in the regular way of a druggist, send your address a postal note to Dr. W. B. Caldwell, 417 Washington St., Monticello, Ill., and a free sample bottle will be mailed you.

MASTIC PAINT

A Lesson in Real Economy

Take two houses—both alike—
Spend about \$50 to MASTIC PAINT one—
Let the other go unpainted—

Offer them both for sale—
You'll wonder why the unpainted house finds no buyer at
even \$500 less than the MASTIC-PAINTED house will bring.

At the beginning both houses represented equal value.

The Lesson: A few gallons of MASTIC PAINT properly applied at the right time greatly increases the value of your property.

Your building needs painting Right Now, but don't use keg-lead or hand-mixed paints. It may be cheaper at the start, but is costly and unsatisfactory in the end.

For Real Economy use MASTIC PAINT
More than Forty Years the Standard of Excellence

FREE Ask for beautifully illustrated book "Homes and How to Paint Them" and color chart showing 45 different color combinations.

Visit this store and let us tell YOU all about the merits of MASTIC PAINT.

SESSION WILL BE VERY LONG

Session May Extend Well
into the Month of Octo-
ber Owing to Delay.

(SPECIAL TO THE TELEGRAM)
WASHINGTON, April 22.—Whether it will be a long session or a short one is a question which the lawmakers under the dome of the Capitol are unable to predict. If the tariff bill is rushed through substantially as it was prepared by the ways and means committee it is quite possible that Congress will adjourn by July 1. But while the House will very likely pass it quickly, despite the disappointment in various quarters over failure to give what is considered sufficient protection, there will probably be a different story to tell in the Senate. In that body the advocates of protection for sugar and wool are likely to gather enough Democratic support to hamper the program of the administration. That will mean delay, if not disaster for the bill. And then too it is not improbable that the president may wish the currency question taken up, and perhaps other important questions, so that the session may stretch along into October.

Pressure on Congress.
That gentle pressure is to be brought to bear to induce Congress to be good is indicated by the holding up of committee appointments, and by the decision of the treasury department to make no appointments of customs officials until July 1. It would be easy for this policy to be extended to other departments; for instance, the department of justice and the postoffice department, which have been somewhat slow about distributing places. Such tactics are likely to prove efficacious.

Canal Coal Deposits.
The official newspaper published by the government in the Panama canal zone known as the "Canal Record" contains an item to the effect that fifteen German steamship lines have applied for coal space on the canal zone sufficient to store 15,000 tons of coal. This only substantiates the statement that the great steamship companies were getting ready to make the fullest possible use of the canal. After passing through this new maritime highway the first port of call on American soil will be San Diego, where active preparations are now being made to celebrate the opening of the canal with a great international exposition. Preparations are being made by the steamship companies to take thousands of visitors to the San Diego exposition.

An Attractive Program.
To visit the unique San Diego exposition will be an experience worth waiting a lifetime for, but to be able to make the journey to it by ship, part of the way through the tropic seas, and threading the great canal which is justly regarded as the engineering wonder of the age, will be an ideal arrangement. Indeed, the rage to visit the canal has become almost a mania, and people are flocking to the canal zone in hordes in order to see the work while it is still under construction. At San Diego there will be a model of the canal, giving a most realistic impression of it, and in honor of the big waterway, the amusement features of the exposition will be arranged on a site which will be known as "The Isthmus."

Rushing Things.
It is now barely a year since the actual work of construction began with vigor on the exposition. Then teams were engaged in plowing and grading for the streets and buildings. Now the buildings are rising and the administrative force is quartered on the grounds in the permanent building erected for its use. The emergency hospital was one of the first structures completed, but happily there has been little use for it. Construction is to be carried on with even greater vigor from now on. President D. C. Collier drew attention, on the anniversary of the starting of construction, to the fact that more than \$3,000,000 had been appropriated by counties in California and by other states for participation in the San Diego exposition. And soon they'll all be doing it.

Oil for the Isthmus.
California ought to feel a very deep interest in the canal for many reasons, but it is not generally known that it is due to that state that things have been running so smoothly there. At least Col. Collier, president of the San Diego exposition, says so. He holds that it is because California has been furnishing the oil. The Union Oil Company has been selling the canal commission nearly a million barrels of oil a year, and it all comes from the southern California wells and is pumped across the isthmus in a pipe line that the company put down.

Smooth Proposition.
This oil business, Col. Collier says,

is a pretty smooth proposition, which is doubtless why he bored for oil himself and got it, right there at San Diego. California is justly celebrated for its oil—both olive oil and crude petroleum. Both will have a place at the exposition and it will be most interesting to contrast the crude methods employed by the old Padres to extract the oil from the olive, and the processes in the modern establishments which utilize the olive. Petroleum was known to the ancients who used its residuum or asphaltum for cementing bricks, for pigments, and in many other ways. Even prehistoric man made use of the sticky asphalt found in the desert places as a sort of glue. All of these things will be illustrated at the San Diego exposition, as well as many others.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

P. J. CHENEY & CO., Toledo, O.

We, the undersigned, have known P. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him.
